

Eco Neo Light

Interior Pocket Cash Recycler

Cash Recycling Made Simple

The Eco Neo Light Recycler is a high-Performance One-Bill acceptance **in-lobby recycling unit** designed to enhance the consumer experience, reduce costs and generate revenue. Based on the concept of “**Re-inventing and Re-engineering the bank branches**” the specific product, as well as all of our self-service products aim to turn branches into **revenue generating entities rather than cost centres**.

Its digitally inspired design takes your brand to the next level, catches the attention of your clientele and at the same time performs brilliantly in all locations where cash deposit and dispensing is required.

Overview

Eco Neo Light Recycler by TechVest Systems is an in-lobby cash recycling unit built for banks, retailers and medium-volume locations. It is a one-bill acceptance recycling unit with a 80-bill dispensing volume through a One-Deposit cassette with a 1,000 note capacity. It combines security, speed and intuitive design – enabling seamless transaction experiences with minimal downtime.
