

Mobile Branch Solutions

Taking banking service anywhere

The Mobile Branch solution offers customers an enhanced experience and increased satisfaction through a complete range of services, available even in the most remote places.

Additionally, it assists banks:

- Have a Low-cost alternative VS Traditional Branch
- Exercise Targeted Market Branch Survey, Marketing activities and Weekend Sales Promotions with Big Promotional Screen.
- Serve low activity areas (Rural Areas)
- Exercise Inclusion Banking (banking to the unbanked).
- Use as a Disaster Recovery option
- Use during Branch Remodeling or new Branch openings

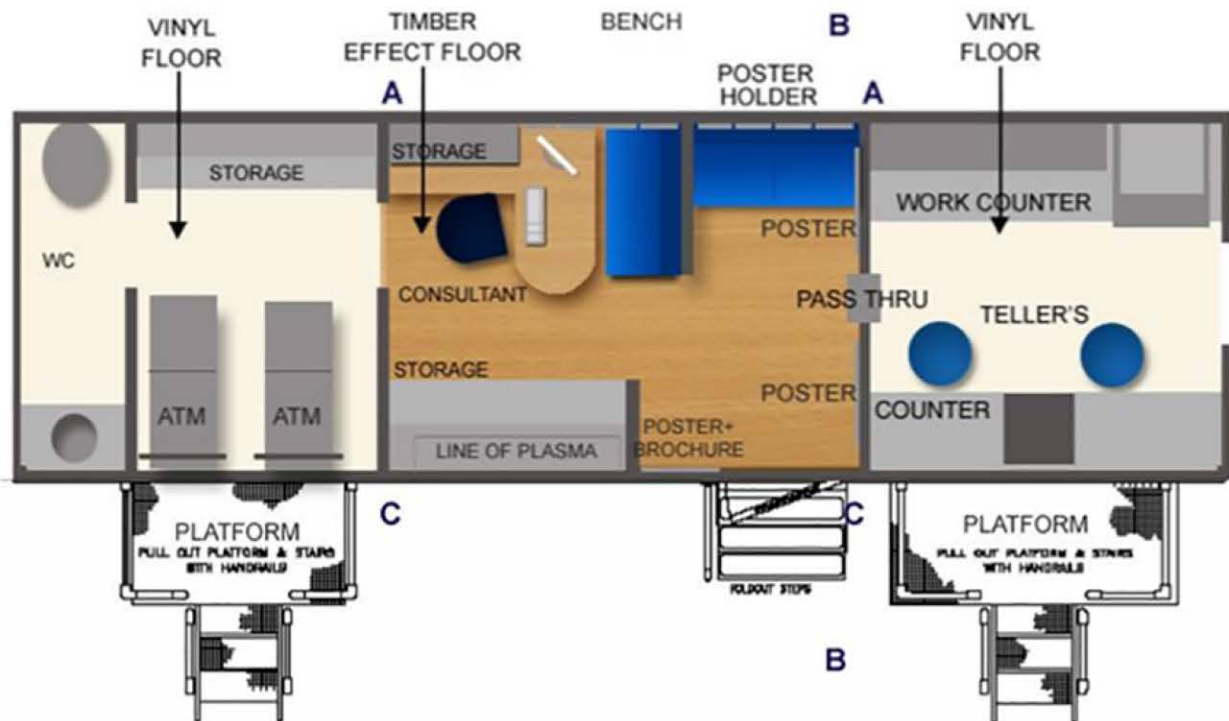

Want to reach even more consumers with an ATM that goes where the people go?

YES

Some markets do not cost justify the +\$1,000,000 expense for a traditional brick and mortar branch. Mobile banking can provide a cost effective method to service smaller or targeted markets.

The **TechVest Systems Mobile Branch solution** is equivalent to the services and comfortabilities of a traditional bank branch and can equally and efficiently service YOUR customers and enhance their experience.

Guided by Your Business Requirements

Configuring According to Your Needs

Configurations of a Mobile Branch are prepared according to **you** and your **customer needs**.

From a Small two **ATM Multifunction** Branch to a **Full Services Branch** with **Customer Service Offices** and **Tellers** to service your customers, Mobile branches provide an excellent solution in terms of offering banking to unbanked population, otherwise inaccessible areas or even to be used in cases of disaster recovery, major events and market scouting.

Customer Service made Comfortable

From **folding exterior anti-slide platforms** for customers accessing exterior services, to **luxury waiting lounges** in the interior, a mobile branch can offer services of a full traditional branch and even more. Otherwise inaccessible market areas can now become accessible, always keeping in mind the comfort ability and satisfaction of the customer.

Customized Interior

The interior of a mobile branch is fully customizable and flexible in designing patterns, which can be chosen and fitted according to price specifications or aesthetics, always depending on your needs.

Advanced Safety Features

Armoring of a mobile branch consists of a **Custom Steel Bulletproof Alloy**, with capabilities of stopping low range ballistics to high range weapons and explosives. Customer can select out of 4 security levels, from basic to terrorist attack protection. From wiring to ventilation and communication, everything is done to the highest quality standards.

Brand Promotion

The exterior of a Mobile branch is a canvas for your advertising Strategies and Promotions. Utilizing this can provide the same effect of large billboard road advertisements, and save a significant amount of cost. Let your customers know who you are and deliver your message effectively and efficiently.

Targeted Marketing Capabilities

Extras such as a **Rolling Bill Board**, **Plasma Television** and advanced alarm equipments can be installed on the mobile branch by demand. Rolling Bill Boards and Plasma TV's provide for excellent product marketing.

The **TechVest Systems Mobile Branch** solutions can provide all the services and comforts offered by a traditional bank branch and can equally and effectively service your customer base by also enhancing their whole experience
